

# Bad Design

## Why is it Bad Design?

- The Channel feature in the whatsapp is not used by many people which is not suitable for whatsapp
- User can choose among only two background colors – Black, White . which donot give them choices and don't look attractive.

# Good Design

## Alterations to make it Good Design:

- In this modern day upi and online money transfer is used more, so implementing payment feature makes it very useful
- The background color is made colourful which makes it more attractive and colourful.
